

Leisure - Center Parcs, Woburn Forest

Challenge: Provide sustainable roof coverings for 625 brand new holiday lodges

Location: Woburn Forest, Bedfordshire

Solution: Grampian in Slate Grey

Client: Center Parcs UK

Developer: ISG

Challenge

Unlike other Center Parcs sites, Woburn Forest's 625 lodges were designed for the first time with traditional pitched roofing, giving them a more upmarket appearance.

Solution

The Grampian was used to combine the traditional appearance of slates with the security of an interlocking concrete tile, and is featured on all of two, three and four bedroom lodges.

Result

Russell Roof Tiles supplied 840,000 Grampians to the Woburn Forest site, giving the holiday lodges a modern appearance whilst also providing significant cost savings and a sustainable roof covering.
